

Eclipse TestNG Plugin Installation

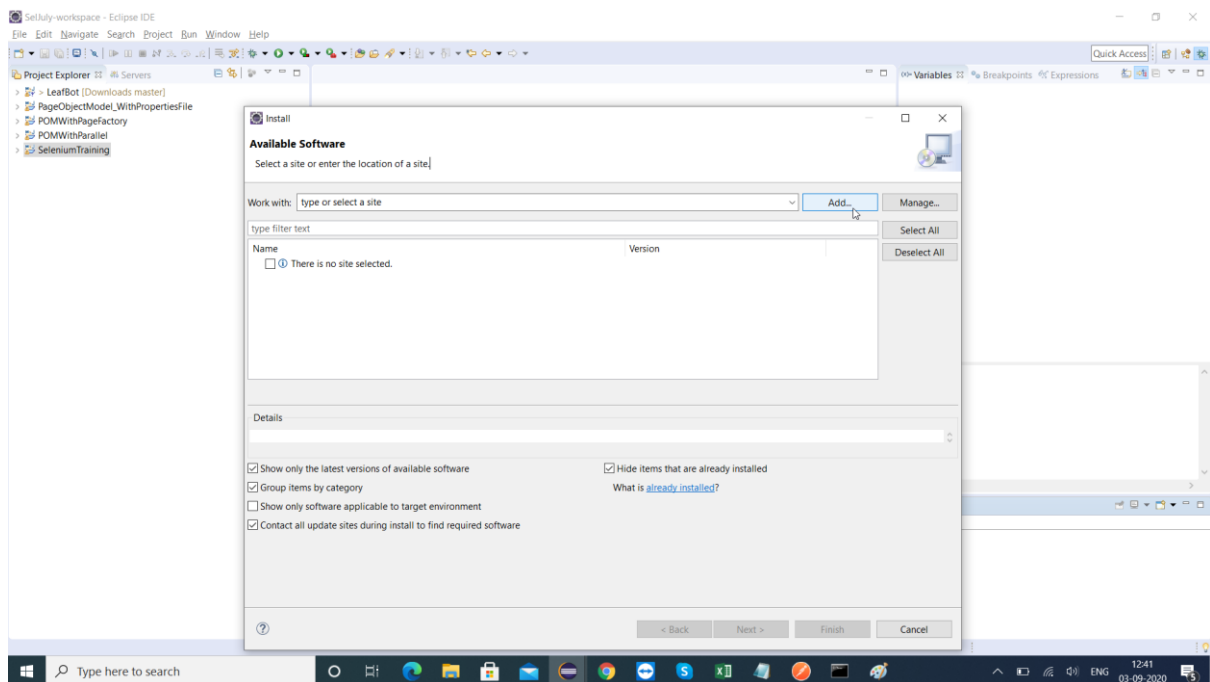

Step1: Check whether TestNG plugin is already available in your eclipse. Go to Window→Preferences and check for TestNG as below. **Ignore rest of the installation if you find TestNG under Preferences.**

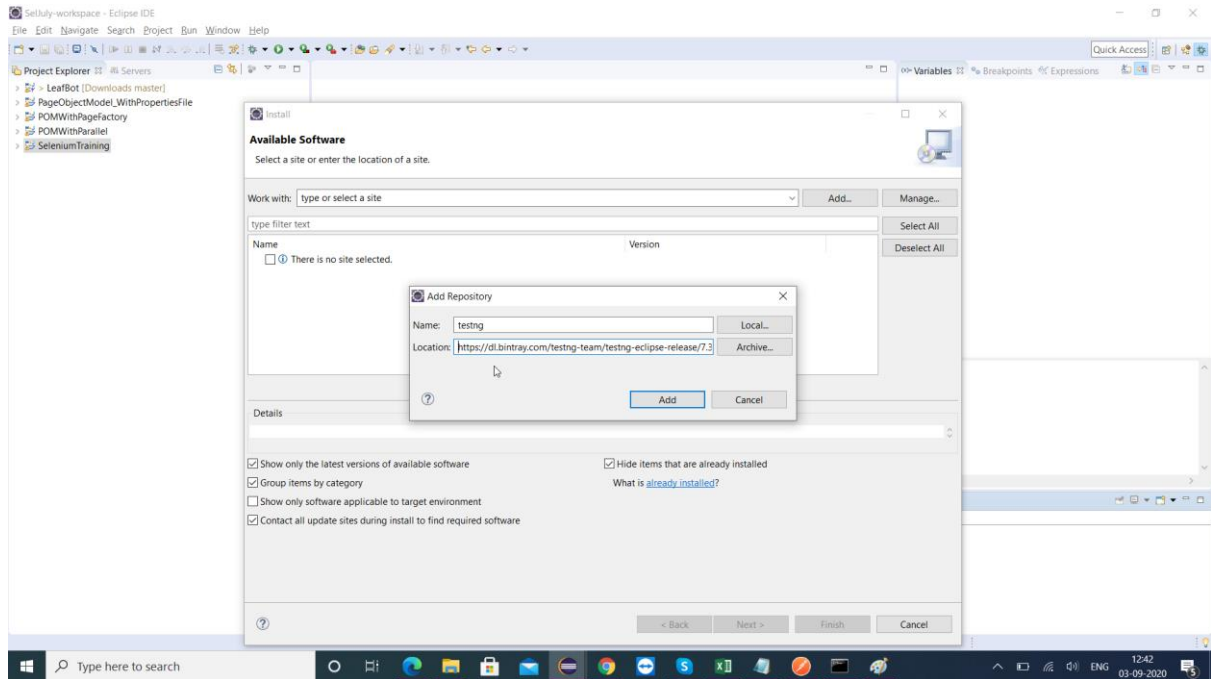

Step2: If you don't find TestNG under Preferences, Go to Help→Install New Softwares...

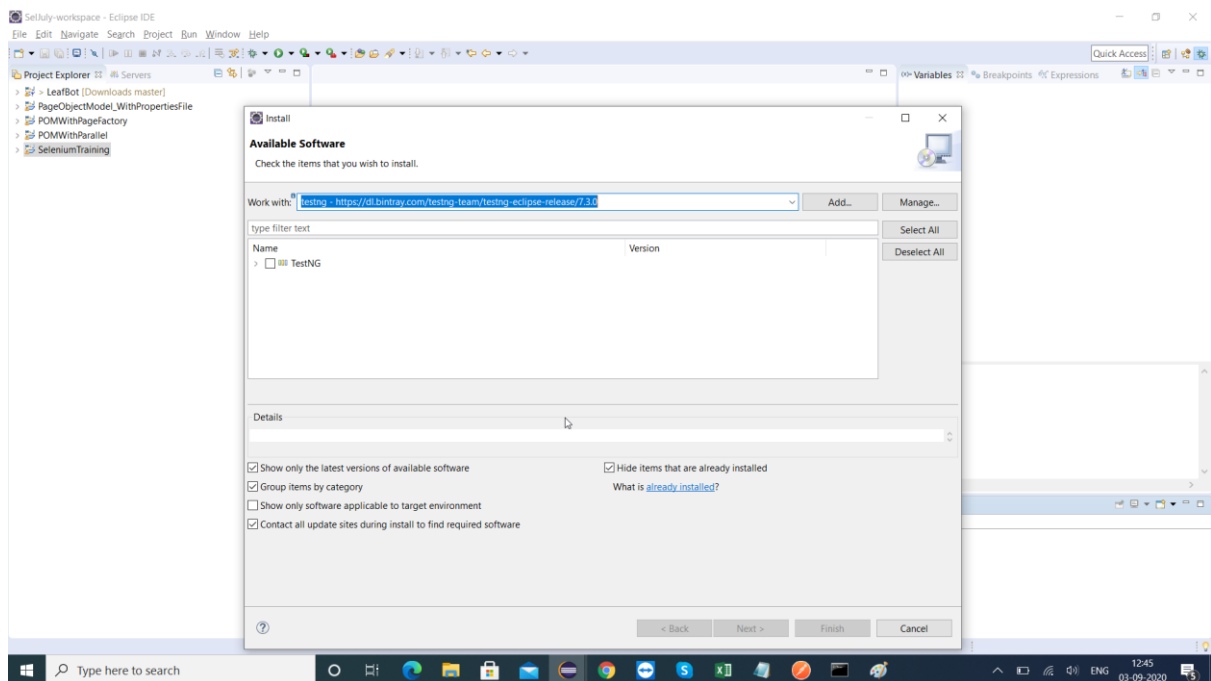

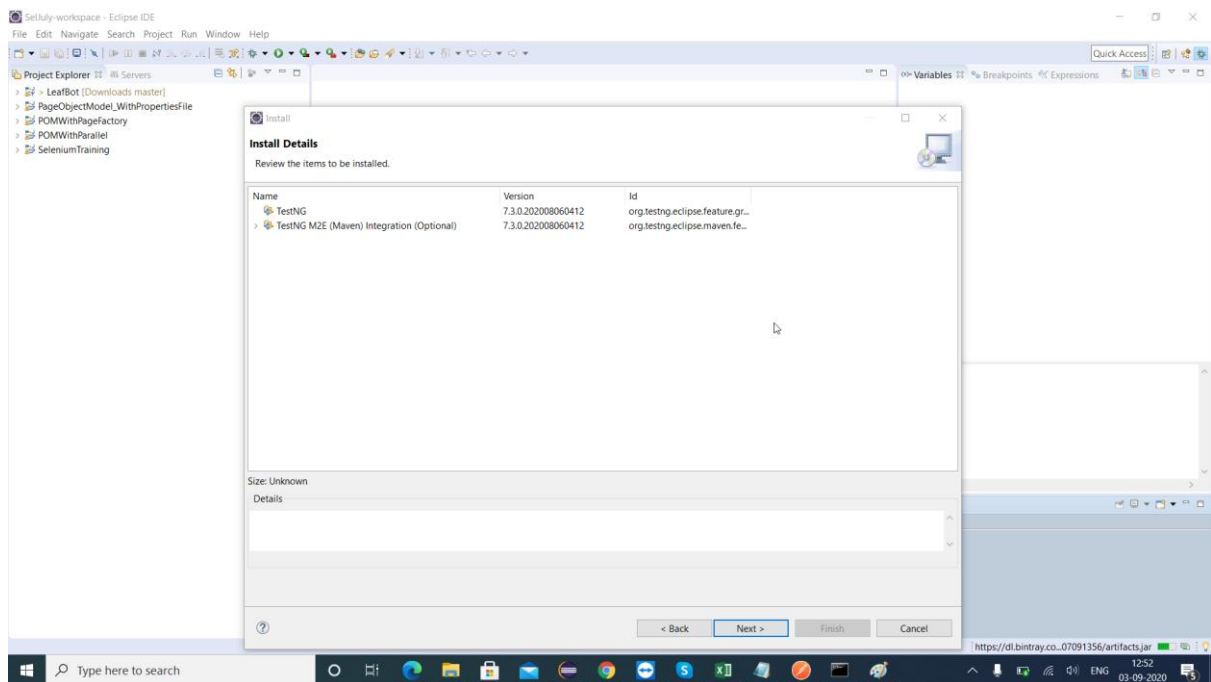

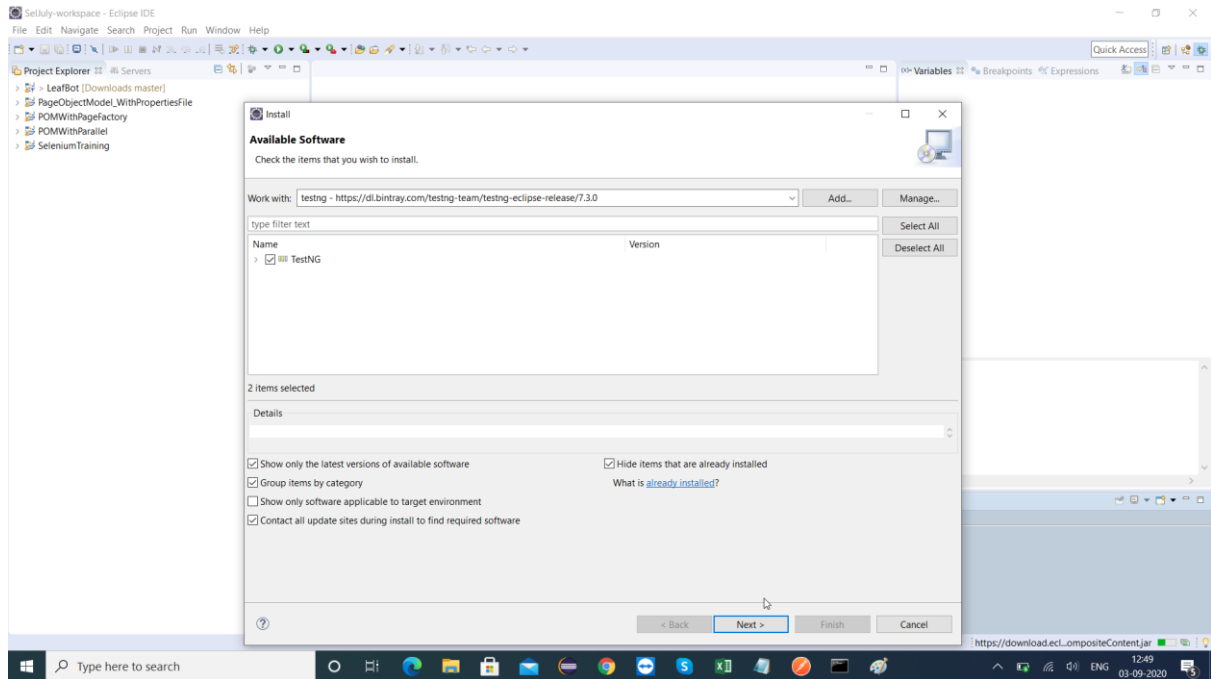

Step3: Click Add to enter TestNG url (<https://dl.bintray.com/testng-team/testng-eclipse-release/7.3.0>) as Below

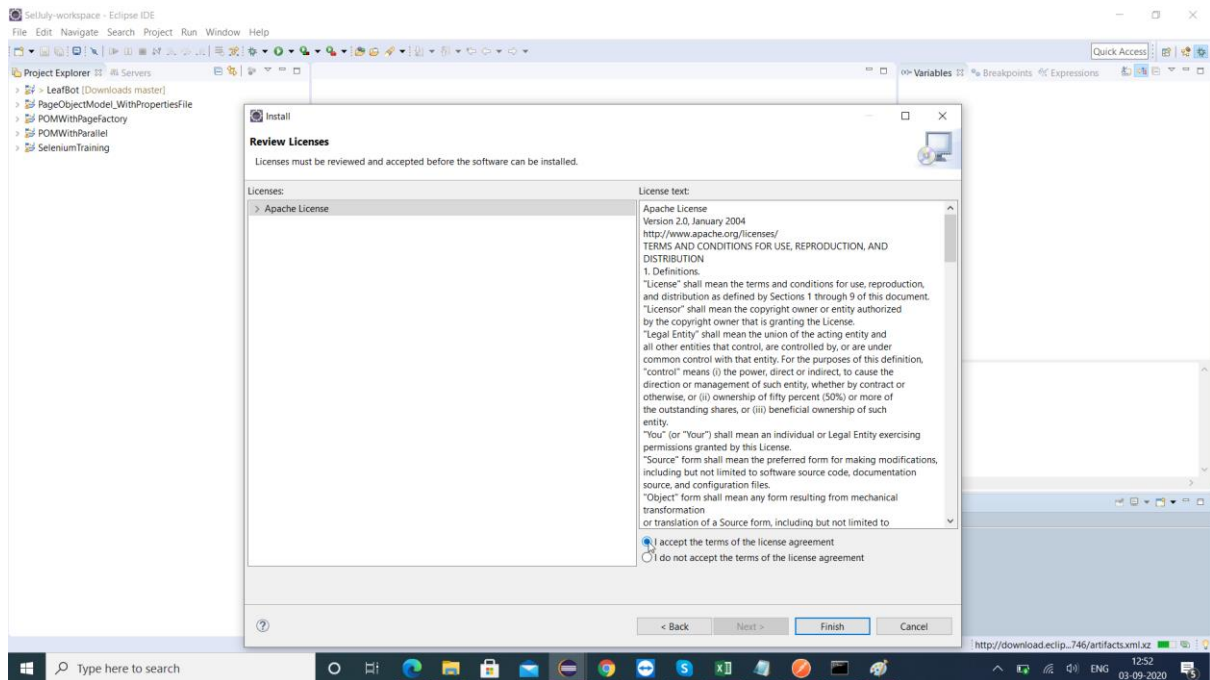

Step4: Select TestNG and Click next

Step5: Accept the terms and conditions and click Finish

Step6: Click Install Anyway and Restart eclipse
