Reg: Applying for Software Development Engineer in Test Position in Brightcove, Chennai

As per our yesterday discussion in the google meet regarding Software Development Engineer in Test Position in Brightcove - Chennai. I'm sharing my updated profile for your references. If you are seeking a person one who is passionate about the quality, and a tech-savvy with the right mix of technical skills. As an SDET, I could help you. I elaborate my skills and bunch of mine achievements in the enclosed resume. From this, you'll get some far amount of ideas on my problem-solving skills.

Aristotle once said, "**Quality is not an act, it is a habit**" – Habit is what drives any business. Quality always plays a crucial role and is a big issue and also it decides the success (or) failure of any business.

As rightly said by Aristotle "**Quality is a Habit, it's not an act**". Therefore providing a quality product (or) service once is not enough an organisation should follow standard quality practices and deliver quality products (or) services consistently. And I am the one who assures the quality will take place throughout the SDLC. I am a highly competent and results-oriented QA person and mentor my team to implement a customer-centric approach which gives great results.

Currently, I am an **Automation Test Specialist** with **8.3 years** of experience in Software Testing at Ameex Technologies Pvt. Ltd. Chennai. I started as a Manual Test Engineer in CMC Limited, Chennai in Feb 2012. My current job role is Sr. SDET for one of the leading business financing companies in the US. My primary role is to deliver the quality and workable product at the end of each sprint and also automate throughout the product's stack like Unit layer, Service layer and UI layer.

Here are some of my competences:

Automation & Manual Testing
Agile Testing
Continuous Testing
Selenium WebDriver - Java
BDD & Cucumber JVM
API Testing
Rest Assured
Mentoring
Test Pyramid

Testing Responsive web sites
Docker & Jenkins

Perhaps most importantly, I offer a history of proven results. While as a Manual Test Engineer in CMC Limited, I received the Star of Month award for delivery of a critical release with minimal defects. While as a Test Automation Engineer in Ameex Technologies Pvt. Ltd. I have successfully implemented the POM and BDD test automation framework which gave us great results. Given the opportunity, I'm confident in my ability to achieve similar groundbreaking results while being part of your team.

I would welcome the chance to discuss how I can implement my ideas for your driver to change and innovate. Feel free to call me on my mobile to arrange a meeting. I'm looking forward to becoming part of your team.

Thanks & Regards
